

EMERGENCY HOUSING VOUCHERS

The Tampa Housing Authority will begin administering Emergency Housing Vouchers (EHVs) effective 7/1/2021. In order for an individual/family to be eligible to receive an EHV, at least one of the following criteria must be met:

- Family must meet HUD's definition of Homeless
- Family must be at risk of Homelessness
- Family must be fleeing domestic violence
- Family must be recently homeless, and in need of EHV to maintain housing stability

EHV's are managed through a direct referral process. All referrals for an EHV must come directly from the Continuum of Care (CoC) through its Coordinated Entry Process.

If you are currently residing in a place not meant for human habitation (in a car, on the streets, an encampment), we recommend that you contact one of the **Homeless Outreach** programs below, to have an assessment completed and obtain information about resources that may be available to assist you.
